ISBN: 978-1-915256-32-4

Date of update:
May 2025

The following updates have been made to the 9th edition of this publication.

Update comments
<p>General</p> <p>We are pleased to let you know that we have made important updates to our <i>Intermediate HACCP</i> book to ensure it reflects the most up-to-date guidance and best practices in food safety management.</p> <p>Updated priority allergen list</p> <p>We have expanded the allergen list to include the latest recommendations from the World Health Organization (WHO) and Codex Alimentarius.</p> <p>Clarified allergen control guidance</p> <p>Additional information has been included about ongoing discussions around allergen threshold levels and regulatory developments. This helps you stay informed and prepare for potential future changes in allergen management.</p> <p>New definition for tolerance</p> <p>We have introduced a clear definition of ‘tolerance’ to support more precise monitoring and corrective action procedures within HACCP systems.</p>
