

Supervising Food Safety (Level 3)

20th Edition January 2023 ISBN: 978-1-915256-01-0

Date of update:
January 2023

The following updates have been made to the 20th edition of this publication.

Update comments

A significant number of minor updates and amendments were made throughout this book to reflect best practice including:

- a new design
- statistics
- legislation
- food safety information

Supervising Food Safety continues to be the leading food safety book for supervisors/managers in the food industry and those attending level 3 food safety courses.
